

**Preferred Products List**

**These products are for Cats Protection use only and must be recommended by the Centre or Branch vet**

This list includes a limited number of veterinary products, on some of which, following veterinary appraisal of suitability in the Cats Protection rescue environment, a significant central discount has been negotiated. This discount is only available when the products are ordered through the Cats Protection veterinary wholesaler scheme, and products are delivered to, and prescribed by, the veterinary practice. Please check the list frequently, as products may change. Any products stocked by the veterinary wholesaler can be ordered, but the more of each product on the list that is purchased, the greater the discount that can be negotiated and therefore, where clinically appropriate it is preferred these products are selected when treating Cats Protection cats. Funding is an issue and demand is high. Appropriate use of the preferred products enables further cat welfare for our money.

- By limiting the range of products used, Cats Protection can benefit from buying in quantity and therefore receive substantial discounts.
- These preferred products are appropriate in most cases but the Centre/Branch vet may prescribe alternative products if required for some cats.
- Where a choice is available, more cost-effective products are highlighted and should be used (when appropriate on advice from the vet).

DESCRIPTION	SIZE	PRODUCT CODE	USE	NOTES AND LINKS TO RESOURCES
